

## **Plant Manager - Operations & Maintenance New wood fired power plant in Novillars, France**

Do you want to be part of the start-up of a new biomass power plant in Novillars, Arrondissement Besançon, France ? Are you ready to take part in recruiting the personnel and preparing the power plant for operation? Then this is the next natural career move for you. We are looking for an experienced manager with ambitions for the future to start in the end of 2017/beginning of 2018.

### **Hiring personnel and coordinating project management**

As General Manager and Plant Manager at the Novillars power plant, you report directly to the Danish based Management of the operating company and coordinate with the Project Manager at AET's headquarters in Denmark. On site, you are initially responsible for hiring the 12 - 15 people who will man the plant, once it is fully operational. Furthermore, it will be your responsibility to:

- ensure optimisation of production and production planning
- manage operations, maintenance, administration, economy, personnel matters, and local relations
- coordinate fuel reception, plans, budgets, reports and the implementation of safety and environmental guidelines.

We look to you to ensure that the power plant operates in the safest and most cost-effective manner, maximising profit while taking into account the lifetime of the plant and the operation period. Likewise, you are responsible for optimising the production and planning in order for the facility to be operated in an economical, safe, and reliable way, meeting load demands and contractual obligations concerning availability.

### **Experienced manager profile with biomass knowledge**

You have a strong commercial background, preferably combined with a technical education, e.g. as a Mechanical, Electrical or Marine Engineer, or similar. You have worked at least 10 years in the Power Industry in a managerial role, preferably with experience from the biomass business with virgin wood fired power plants. You work seamlessly with MS Office and/or similar software, and you are expected to have experience with finance and accounting, as well as reporting on management level.

You understand how to put your knowledge of and experience with French safety legislation and environmental permits, and with ISO9001/14001 and OHSAS18001 and their application. As an experienced people manager, you rely on your natural impact, flexibility, and cooperative disposition when establishing a brand new organisation. You are self-motivated and enjoy handling a variety of tasks in an ever-changing setting, always looking to ensure long-term success.

You are fluent in French and English, speaking and writing.

### **Application and questions**

If you have any questions regarding the position, please contact O & M Manager, Hans Christensen at +(45) 96 32 86 00. For more information about AET, please visit [www.aet-biomass.com](http://www.aet-biomass.com)

Please send your application and CV as soon as possible to [aetjob@aet-biomass.com](mailto:aetjob@aet-biomass.com)

The following positions within the Novillars Power Plant will become available in 2018:

- Operations & Maintenance Manager
- Shift Team Leader
- Assistant Shift Team Leader
- EC & I Technician & Mechanical Technician
- Fuel Handling Team Leader
- Fuel Handler/Operational/Maintenance Support
- Administration/Financial Assistant

*The company in Novillars is fully owned by AET of Denmark.*

*The Danish company Aalborg Energie Teknik a/s (AET) is a leading independent engineering and contracting company, supplying biomass fired boiler plants, power plants, and combined heat and power plants (CHP) in the size range of 25 to 170 MW<sub>th</sub>.*

*The AET business comprises design, engineering, delivery and service of plants fired with all kinds of biomass. The well-proven AET Biomass Boiler and AET Combustion System are based on more than 30 years of hands-on experience with industrial processes, steam generation and biomass combustion.*

*AET was founded in 1996, and has since then experienced a steady growth. The company presently has around 150 employees.*
